

SMART AUGMENTED MOBILE

Full stack developer

Strengthen our team and help shaping our solutions!

Gemsotec is a fast-growing start-up from Leuven that builds mobile and innovative applications for industry. Gemsotec has been renowned for its user-friendly applications for industry, winning prizes awarded by Aquafin and the Belgian government. Gemsotec is looking for an enthusiastic **full stack developer**, someone who likes to set out the technical lines. Together with your team you ensure that the developed software meets the needs of our customers.

Are you looking for a job with a lot of responsibility and flexibility, the chance to learn aspects of team lead, technical lead and product owner? To feel the start-up spirit and work with like-minded colleagues? Do you want to immediately see the impact of developed features? Do you want to contribute to a safer industrial environment, work for customers such as H.Essers, Brouwerij Martens, Oleon or do you want to get a closer look at other large industrial production sites?

Your responsibilities:

- Together with your team you develop and maintain the Gemsotec software.
- You will be involved in the initial concept, design, functional specification, documentation and testing of the final product
- You are involved in continuous improvement and ensure that a high quality standard is maintained.
- You take care of the sprint preparation and follow-up: preparation of the tickets, supervision of the developers and reviews.
- You monitor the most important relevant technological developments.
- You help to ensure support for Gemsotec customers.

Your profile:

- You have a master's degree in computer science or computer science.
- You have at least 3 years of experience in programming mobile and web applications, preferably in a full-stack Javascript / Typescript environment.
- You have experience with building SaaS products and the API economy
- You have a strong experience in backend components, devops and deployment. Preferably you have experience with React and React native, and node.js and enjoy working in Google Cloud Platform
- You score as a team player, you are flexible and work customer-oriented.
- You like to deliver quality.
- You are hands-on and have an agile mindset.
- You can communicate fluently in Dutch and English.

Our Offer:

- You work in a challenging context with many opportunities.
- A competitive salary with fringe benefits.
- A good work life balance thanks to flexible working hours and the possibility to work from home.
- The opportunity to develop and strengthen yourself permanently.
- You work with cutting edge technologies.
